## San Francisco Bay Area Chapter

Since 1928

June, 1994

### Annual Business Meeting and Election of Chapter Officers

#### Ozone Depletion, Paradigms, and Politics

**Speaker:** Ronald L. Iman  
President, American Statistical Association  
Sandia National Laboratories

Chlorofluorocarbons (CFCs) are primary contributors to the depletion of the ozone layer. The clearing of electronic equipment accounts for 20% to 30% of CFC usage. This presentation will give an overview of a joint testing program at Sandia and Motorola to evaluate a low-residue soldering process that eliminates clearing. Such processes are in widespread use in commercial applications.

## Election of Chapter Officers

The nominating committee has proposed the following slate of officers for the 1994-1995 academic year:

**President Elect:**

Loren Schoof  
Pacific Bell

**Vice President Biostatistics**

Kathleen Lamborn  
University of California, San Francisco

**Vice President General Applications**

Florence Van Geem  
Kaiser Foundation Health Plan

**Treasurer:**

Jim Lenihan  
William M. Mercer, Inc.

**Secretary:**

Michael Lock  
Becton Dickinson Immunocytometry Systems

These recommendations will be voted on at the business meeting, June 9. As is customary, the president elect will succeed the current president. This year, President Elect Rose Ray will succeed David Kimble as chapter president.

The chapter would like to the members of the nominating committee for their efforts.

## Job Opportunities

### Biostatistician

Becton Dickinson Immunocytometry Systems, San Jose

Becton Dickinson is seeking a biostatistician, preferably with a background in the health care industry. You'll perform statistical analyses and develop tracking systems to determine the efficiency of clinical trials, interact with clinical investigators to design protocols, and analyze data to resolve product development, testing and manufacturing quality control problems.

The ideal candidate will have an MS in statistics or mathematics and 3-5 years of related experience, or 0-2 years with a Ph.D. You should have strong interpersonal skills and expertise in statistical methodology, statistical programming and computer systems. Familiarity with at least one statistical package is required, e.g. SAS, SYSTAT, SuperANOVA. Knowledge of both IBM and Macintosh computers is a plus.

Contact Craig Andersen, Human Resources, Becton Dickinson, 2350 Qume Drive, San Jose, CA 95131-1807. Phone: (408) 954-2206. Fax: (408) 954-2008.
